RE: Work Plan for the Removal, Encapsulation, and Vacuuming
of Asbestos-Containing Materials at the Millington
Asbestos Dump Site on New Vernon Road, Meyersville,
New Jersey; OHM Project 9533E

Dear Mr. Neill:

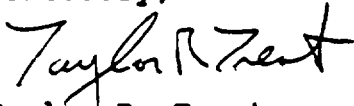

OHM Remediation Services Corp. (OHM) is pleased to submit
this Work Plan to the United States Environmental Protection
Agency (USEPA) for the emergency remedial activities at the
Millington Site.

Our Work Plan was developed from our site visit on
August 28, 1990 and discussions with John Witkowski and
Michael Ferriola.

This Work Plan contains the major work tasks for cleanup
activities at the site. Alternative work efforts may be
developed as work at the site proceeds and a better
understanding of the extent of contamination is reached.

If you have any questions concerning this submittal, please
feel free to contact me at 508-435-9561 or 609-987-0010.

Sincerely,

Taylor R. Treat
Response Manager
